

Dear Commissioner Henney,

4-19-99

I am writing as a member of the Humane Farming Association in regards to Docket 99P-0033/cpl. I think it is absolutely disgusting to force non-meat-eating animals, such as cows, to eat other animals with their feed. In light of evidence linking new variant Creutzfeldt-Jakob Disease in humans with "mad cow" Disease in cattle, it is beyond my comprehension that this practice be allowed to continue. Every effort should be taken to limit the transmission of this disease among animals, & thereby reducing the risk of its transmission to people. I urge you to act on the HFA petition to end this practice - for the well being of animals and humans. Thank you for your consideration of this matter.
